  Science-policy interface research
  Genome sequencing
  Community- and macro-ecology of butterflies
  Forest ecology
  Socio-economics of biodiversity conservation

Candidates that successfully applied to the doctoral and postdoctoral research projects within the iDiv Flexpool are invited to the Joint Recruitment Symposium.

The idea behind the symposium is to select the best doctoral and postdoctoral researchers by crossing options, create an early partnership feeling and promote the qualities of iDiv.

All iDiv employees and members are warmly invited to join the symposium as listeners!
