17.25 Wine and snacks

Friday, 23 June 2017

Job interviews and internal meetings of PIs

Doctoral research projects:

- **Systemic signalling in mycorrhizal and plant herbivore interactions (iDiv Flexpool)** – Group of Franziska Krajinki-Barth
- **Plant diversity under fertilization and exclusion of herbivory (iDiv Flexpool)** – Group of Anu Eskelinen and Harald Auge
- **Species richness patterns along elevation gradients (iDiv Flexpool)** – Group of Sylvia Haider
- **Improving alien species distribution by integrating data across scales (iDiv Flexpool)** – Group of Carsten Meyer
- **Scale-dependence of determinants of rarity and diversity of xylobiont beetles (iDiv Flexpool)** – Group of Martin Schlegel
- **Hot- and cool-spots of biodiversity in Leipzig** – Group of Jörg Zabel
- **Environmental controls on local, regional and global patterns of biodiversity** – Group of Jonathan Chase
- **Land governance on global land-cover and biodiversity change** – Group of Carsten Meyer
- **Biodiversity conservation** – Group of Henrique M. Pereira

Candidates for one of the nine open PhD positions at iDiv will be invited to the Joint Recruitment Symposium. The idea behind the symposium is to give the candidates the opportunity to present their suitability for the role, create an early partnership feeling and promote the qualities of iDiv.

All iDiv employees and members are warmly invited to join the symposium as listeners!
