yDiv Progress Report

5) Remaining steps for the completion of your PhD project

This document is filled out by the yDiv doctoral researcher who sends it to the PhD Advisory Committee (PAC) and yDiv coordinator at least one week prior to the progress meeting. Progress meetings are organised annually (following the kick-off meeting) by the doctoral researcher. The entire PAC team should be present in these meetings. During each progress meeting, all sections of this form are discussed and developed together with the PAC team. A revised, final version is approved by the doctoral researcher and the PAC team following the meeting, and submitted to yDiv coordination within one month from the meeting.
