**\*How is "support" & "collaboration" defined for an sDiv project?**

We consider the iDiv members as integral project collaborators.

You as iDiv member should be involved in the development (and writing) of the proposal and its underlying ideas. Make sure to discuss your ideas and input with the PIs and are incorporated in time.

Please be aware that the planned collaboration needs dedicated time, expertise and willingness to contribute significantly from the beginning of the project to the end.
